

Computer Training Center, Hyderabad

Priyanka dreamt of making her parents proud. Her father works as a watchman and her mother as a maid. They could not afford to send her to a school where they taught computers as part of their curriculum. So, they had to send Priyanka to a Government run school. So, when Priyanka got admission in our centre she knew she had to make the most of the opportunity provided to her. She is one of the most outstanding students in our centre. We also help the students in improving their handwriting. When her handwriting improved her school teacher noticed it and asked her about it. She proudly told her about the HOPE worldwide computer training centre.

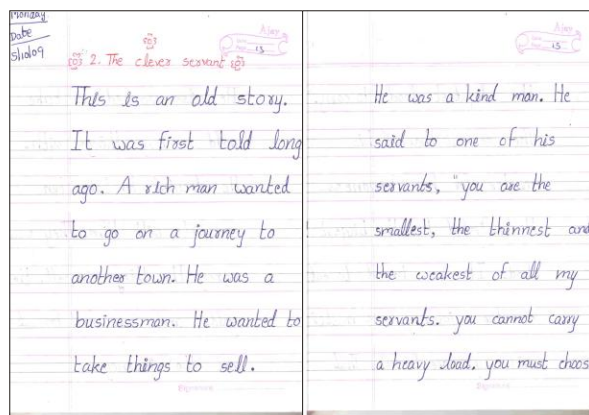

Mission

Our mission, as a compassionate but non-sectarian international charity is to change lives by harnessing the compassion and commitment of dedicated staff and volunteers to deliver sustainable, high-impact, community-based services to the poor and needy.
